Registration Fee: Members of the Bar RM30, Young Members (3 Years & Below) RM15 & Pupils in Chambers RM15.00 & Non-Members RM50

2 CPD
POINTS

DR. SIVASANGARAN NADARAJAH

Dr. Nadarajah (Advocate & Solicitor) brings hands-on construction industry and engineering knowledge to legal practice, from his former Mechanical Engineering career. He sees commercial and practical risks and business drivers associated with engineering projects and leverages this to deliver solutions to complex issues.

At SIEMENS he developed a novel wastewater treatment. At NCR he wrote fresh 4th generation programming language software. As a consultant, he oversaw the planning, design, construction and delivery of Mechanical Engineering Building Services, including for the largest building in Malaysia (Berjaya Times Square) - besides dealing with the complexities of a huge building, he helped project manage its construction through the 1998 Asian Financial crisis challenges, together with extensive value engineering.

He advises clients from procurement and structuring to negotiating and drafting contracts – and he was involved in preparing suites of works contracts (for infrastructure works, including for one of the largest projects in Malaysia, the KL “MRT”; tenders for Power Plants; etc.), IT and commercial agreements.

He appears as counsel in dispute resolution matters (in litigation, arbitration and adjudication), as an Arbitrator (sole and presiding) and an Adjudicator (in construction disputes). He has also delivered a final and binding Expert Determination for AIAC’s first such appointment (for an ad hoc matter).
