Back to School

The Selangor Bar Committee is pleased to inform members and pupils that the Selangor Bar, in collaboration with the Rotary Club of Klang, will be jointly organising a Back-to-School Programme aimed at supporting B40 and underprivileged students in preparation for the upcoming school term.

Through this initiative, school uniforms, shoes, and other essential items will be provided to students identified as being in need of assistance. This charitable effort reflects our continued commitment to contributing positively to the community and supporting the welfare and educational needs of children from underprivileged families.

Further details, including the date, time, and venue of the programme, will be announced in due course. Members are encouraged to contribute generously, as every contribution—no matter how big or small—can make a meaningful difference in the lives of these children.

Deepavali Charity

The Selangor Bar organised a Deepavali outreach programme for underprivileged children in Jenjarom, Banting, Klang. During the programme, essential food items, pillows, and angpaos were distributed to 43 children within the community. This initiative was undertaken to extend the spirit of Deepavali—a festival symbolising light, joy, and prosperity to children from less privileged backgrounds, ensuring they were able to share in the festive celebration.

Thank you.
