GEN AI AND THE RULE OF LAW: SAFEGUARDING HUMAN JUDGEMENT

“CAN ARTIFICIAL INTELLIGENCE ASSIST JUSTICE WITHOUT REPLACING HUMAN JUDGEMENT?”

This talk examines the transformative impact of Generative Artificial Intelligence (“Gen AI”) on the legal profession, judicial decision-making, dispute resolution, and the broader administration of justice. It explores the opportunities presented by AI-driven legal tools while critically addressing the risks posed to fairness, accountability, transparency, due process, and the preservation of independent human judgement.

CHUA ENG SIONG

Advocate & Solicitor | Arbitration & Dispute Resolution Practitioner | AI & Law Researcher

Chua Eng Siong is an Advocate and Solicitor of the High Court of Malaya with more than 33 years of practice experience and is the Principal of M/s Chua Eng Siong Associates.

His professional work and academic interest focus on arbitration, dispute resolution, and the intersection between law, technology, and artificial intelligence.

He is actively engaged in research and professional discussions on Generative Artificial Intelligence, AI governance, procedural fairness, judicial decision-making, and the preservation of human judgment within the administration of justice.
